

ABOUT DCPSL

A small family business and one of the premier companies in power reliability and sustainability solutions, DC Power Systems Limited has been serving Trinidad and Tobago, the lower Caribbean and the Guyanas since 2001. Our applications range from heavy industrial through commercial to individual residential installations.

Our primary areas of business include the design, engineering, supply, installation, service, and maintenance of Industrial Batteries and Battery Chargers, Industrial Grade UPS's and Inverters, AC and DC Power Systems, Solar and other Renewable Energy products, and Waste Heat Recovery Systems. Our goal is to continue providing our customers with practical, high quality solutions while refusing to compromise on integrity and professionalism.

Dcpsl Managing Director, **Mr. Ian Boon**
